# PULSE UTILITIES™
QUICK, EASY SOLUTIONS FOR MACOLA

All-In-One Master File Import/Export Utility

Use Excel to make changes to your Macola master files in minutes

If you need to make changes to your Macola master files and have been dreading the hours and hours of time it will take to open the screen for each and every one, this utility is for you. For example, let's say that you want to change the product category of 500 inventory items, update 1,000 price codes or change 200 bills of material.

Excel-based ● Use familiar Excel to make master file changes

Fast ● Eliminates hours of tedious keying and proofreading

Easy setup ● Select just the data fields to display

Risk-free ● A backup is made prior to making changes

Designed for Macola ● Works with both Macola Progression and ES

Easy installation and operation ● Unlimited training & support is included

How does it work?

Using familiar Excel along with powerful Visual Basic programming, this utility imports and exports data directly from and to your Macola Progression or ES database. You can select from the list of over thirty Macola data files. You can make any changes to any data field. It is easy to use.

What Exact Macola data files can be changed?
