Overview of the PULSE for Amazon Software

**PULSE** FOR AMAZON +

IMPORTS ORDERS AND PROCESSES PAYMENTS

FBA Orders (fulfilled by Amazon):
- Log into Amazon to download your orders file.

- The file contains each item shipped.

- Optionally, automate the file download.

- Our software:
  - displays each shipment
  - allows you to make any needed changes
  - creates individual Macola customer orders OR one order for the entire day

- When replenishing, key in Macola inventory transfers to your Amazon location.

FBM Orders (fulfilled by your company):
- Log into Amazon to download your orders file.

- The file contains each item to be shipped.

- Optionally, automate the file download.

- Our software:
  - displays each order
  - allows you to make any needed changes
  - validates each item number
  - creates individual Macola customer orders.

FBA ORDERS FULFILLMENT BY AMAZON

FBM ORDERS FULFILLMENT BY MERCHANT

PULSE Amazon Integration

AMAZON PAYMENTS & FEES

- Log into Amazon to download your payment file.

- This file contains both payment records and Amazon fee deductions.

- Our software:
  - displays each payment
  - allows you to make any needed changes
  - validates each order
  - applies the payments
  - applies the Amazon fees
  - updates your Macola A/R and G/L

- Optionally, distribute Amazon fees using manual G/L journal entries.
